

What You May Not Know about the Covid-19 Virus

by Vidya Frazier
September 22, 2020

Note: Please note that I do not claim to know that the information in this ebook is absolutely true; I just believe that, based on the credible sources involved, the information probably contains a great deal of truth and it needs to be considered and researched. Also, since many posts and videos contradicting the official narrative about Covid-19 have recently been systematically censored and removed by youtube, facebook, google and twitter, some of the links I provide may no longer be viable by the time you read this. Just know that the pages were once there.

* * *

If you are still living in fear about catching the Covid-19 virus, you are not alone. Millions of people remain frightened about it – and it is unfortunate, because, in so many ways, there has never been any likelihood that most people would ever catch it. It's definitely true that there is a virus, and that many people have gotten sick and suffered, and some of those have died. But there has never truly been a *pandemic* as we've been led to believe.

This ebook will explain why. It is basically a compilation of dozens of articles and videos with information from **highly-credible front-line doctors, scientists and intelligent, truth-seeking journalists** that has not been reported through the mainstream news, but has streamed through the internet for many, many months during 2020.

You may initially think what you read here is all “conspiracy theory”, because it offers information so radically different from what the mainstream media has presented. However, if you can keep an open mind, you will undoubtedly see the truth behind all the misinformation about the virus and the lockdown situation that we have been told from “official” sources.

It can be difficult at first to take in information that is so different from what you have believed to be true – especially when you’ve initially been given information about something that creates a great deal of fear in you. **The fear tends to lock in whatever information you’re taking in, no matter how false it may be** – and make it hard to receive new information that is different, even if it’s obviously logical and true. But do your best to simply keep reading and clicking on the multiple links to sources that are offered, in order to see a greater truth than you may be aware of.

False Numbers

First, let’s start with the information given through the media about the numbers of people who have either been diagnosed with Covid-19 or have died from it, and see what has *not* been reported. Although the mainstream media continued throughout the months to report escalating numbers of deaths due to the virus, in September 2020, it was reported on the Center for Disease Control website itself (albeit very quietly), that **only six percent of the Covid-19 deaths it had previously reported were deaths that could actually be attributed solely to the virus.**

We had been told that the virus had killed over 180,000 Americans since March. This means that 94% of the 180,000 fatalities attributed to the disease had **other major co-existing factors involved in the deaths.** As it turns out, according to the newly released CDC data, only 10,800 of those 180,000 can truly be attributed solely to the virus.

<https://thetruthaboutcancer.com/cdc-inflates-coronavirus-deaths>

In fact, you can look at the map on the CDC site itself to **see clearly that the “pandemic” – if it ever existed – is over.**

<https://www.cdc.gov/flu/weekly/index.htm#ILIActivityMap>

Even back in May 2020, the CDC had already admitted its estimates to be faulty. It came out with a report that should have been earth-shattering to the official narrative, yet it went into the thick pile of vital data and information about the virus that somehow never got out to the public.

<https://www.cdc.gov/coronavirus/2019-ncov/hcp/planning-scenarios.html>

In the report, the CDC attempted to offer a real estimate of the overall death rate for Covid-19; and under its most likely scenario, the number was 0.26%. In sum, the **CDC formally showed that the number of deaths from Covid-19 were no worse than that from the annual flu** that shows up every fall.

<https://www.youtube.com/watch?v=3P3ehWjiuH4&feature=youtu.be>

Faulty Testing and Diagnoses

Finally, in September 2020, even the NY Times admitted that the numbers had been way off. In addition, it also reported that the tests given to people for the virus were faulty, in that they were **“diagnosing huge numbers of people who may be carrying relatively insignificant amounts of the virus” and “are not likely to be contagious.”** Because of faulty procedures used at *every single testing site in the country*, **“up to 90 percent of people testing positive carried barely any virus at all.”**

https://www.redstate.com/michael_thau/2020/09/03/ny-times-up-to-90-testing-positive-for-c19-virus-not-infectious-but-problem-actually-much-worse/

How did this happen? How could the numbers have been so off?

Dr. Ngozi Ezike, director of Illinois Department of Public Health, explained: “The case definition is very simplistic.”

“It means, at the time of death, it was a Covid positive diagnosis. That means, that if you were in hospice and had already been given a few weeks to live, and then you also were found to have Covid, that would be counted as a Covid death. **It means, technically even if you died of a clear alternative cause, but you had Covid at the same time, it’s still listed as a Covid death.**”

https://www.youtube.com/watch?v=ljpHugKNcoI&feature=emb_logo&app=desktop

For example, medical examiners in Michigan reported using this definition in coming up with their numbers. In Macomb and Oakland Counties, where most of the deaths occurred, medical examiners classified any deaths as Coronavirus deaths when the

postmortem test was positive. **Even people who died in suicides and automobile accidents met that definition.**

<https://www.mlive.com/public-interest/2020/04/medical-experts-say-michigans-coronavirus-death-count-isnt-accurate-but-is-it-too-high-or-too-low.html>

In Hamburg, Germany, a prominent forensic medicine professor, **Klaus Püschel**, with vast experience in autopsying individuals who had died with the Covid-19 virus, stunned an audience by claiming that the hysteria over the coronavirus was “completely exaggerated,” as **all fatalities he examined had serious previous illnesses which would have soon resulted in death with or without the virus.**

https://prepareforchange.net/2020/09/18/renowned-forensic-doctor-destroys-media-killer-virus-lies/?utm_source=rss&utm_medium=rss&utm_campaign=renowned-forensic-doctor-destroys-media-killer-virus-lies

In June 2020, a respiratory therapist on the front lines joined the ranks of the growing number of doctors who were reporting that the so-called pandemic simply didn't add up due to various reasons that had already been reported by independent and citizen journalists, as well as doctors: **empty hospitals, inflated figures and people being falsely counted as Covid-19 cases.**

In his post, “Respiratory Therapist Exposes the Fake Virus Pandemic”, he names one nightmare after another – not about the patients fighting for their lives, as you might expect – but at how puzzling and infuriating all the events taking place in the hospital were.

Among other things, he exposed the Covid-19 test itself as useless. He explained that it does not test for the virus but rather *the reaction to the virus*. Since it is a PCR test, it merely tests for RNA sequences that **could be caused by many other things, not simply a dreaded new coronavirus strain.**

https://prepareforchange.net/2020/06/08/respiratory-therapist-exposes-the-fake-virus-pandemic/?utm_source=rss&utm_medium=rss&utm_campaign=respiratory-therapist-exposes-the-fake-virus-pandemic

Indeed, it was obvious that the tests for Covid-19 were faulty, even back in May 2020. Suspicious of them, Tanzania's President, **John Magufuli**, dismissed imported coronavirus testing kits as useless, saying he had sent in **samples of**

DNA taken from a goat and a pawpaw fruit, and these tests had returned positive results for Covid-19.

<https://www.collective-evolution.com/2020/05/04/tanzanias-president-tests-pawpaw-fruit-for-covid-19-it-tested-positive-something-is-happening/>

There is No Actual Pandemic

As is clear at this point, there has never actually been a pandemic of Covid-19 – especially not in the US. Again, it's true that the virus does exist and people do get sick from it. Indeed, at the beginning, **back in March, there seemed to be a much more virulent strain of the virus that was prevalent** in certain areas. But when looking at the true figures the CDC has finally come out with, it's clear that **an actual pandemic has never actually existed.**

It's hard to believe, because we've been so bombarded by reports of all the people who have tested positive and who are dying in hospitals. And yet, it became clear at some point to many that maybe little of what we were hearing was actually accurate. And maybe all the precautionary mandates about lockdown and masks have never been necessary.

Think about it: In former years when a contagious disease appeared in a community, **it was always those who had the disease who were quarantined – not the entire, mostly healthy population.** That is what has been so strange and suspicious about the whole lockdown situation.

One of the main situations that citizen journalists with cell phone cameras were discovering, even back in March, was that so many of the hospitals that were supposedly overflowing with Covid-19 patients **were actually almost empty.** Their discoveries were verified by certain doctors and nurses who were saying that staff was being laid off, due to lack of patients.

We also saw how newscasters on CBS actually showed videos of a hospital in Italy, claiming it was a hospital in the US. Subsequently, the news channel was forced to admit this. CBS also showed videos **of large numbers of people lining up for coronavirus testing that were staged.**

<https://www.thegatewaypundit.com/2020/05/okeefe-strikes-insider-reveals-cbs-news-staged-coronavirus-testing-line-fake-patients-video/>

It may be argued that outside the US, in China and certain European countries, there was indeed a pandemic. Some have affirmed that there have been different

strains of the same virus – some strains, as noted, more virulent than others. And this could be true. But it is difficult to know for sure, because there are **many doctors worldwide who would agree that even what has occurred in Europe and China has not actually been caused (or primarily caused) by a Covid-19 pandemic.**

In the earlier part of the year, certain journalists and researchers were claiming, with scientific validation, that the **highest numbers of cases arose in areas in which 5G had just been installed** – explaining that 5G has been proven to lower people’s immune systems, making them very vulnerable to disease. But it’s difficult to know for sure, since, mysteriously, all the videos and posts written describing this fact have since disappeared from the internet.

However, it’s clear that people in Germany, at least, have smelled a rat almost from the beginning about what they were being told regarding the supposed pandemic. In late August and early September 2020, there were **over a million people**, aware of the lies, who gathered in Berlin over several weekends, **protesting the unneeded lockdown mandates.**

https://www.youtube.com/watch?time_continue=285&v=kv820poKq8g&feature=emb_logo

A **letter signed by over 500 doctors** was read, describing how the pandemic was not real.

<https://www.awakeningchannel.com/post/thousands-of-doctors-representative-exposes-the-cv19-scam-at-the-berlin-demonstration>

https://prepareforchange.net/2020/09/15/german-doctors-on-covid-19-we-have-a-lot-of-evidence-that-its-a-fake-story-all-over-the-world/?utm_source=rss&utm_medium=rss&utm_campaign=german-doctors-on-covid-19-we-have-a-lot-of-evidence-that-its-a-fake-story-all-over-the-world

The last week of August 2020 also saw **gatherings of tens of thousands of individuals in London and in Dublin, protesting** stay-at-home orders, business closures, mask and vaccine mandates and Bill Gates’ grip on public health matters.

https://www.wakingtimes.com/2020/09/16/a-global-uprising-is-underway/?utm_source=Waking+Times+Newsletter&utm_medium=email&utm_campaign=6c352b8e7b-RSS_EMAIL_CAMPAIGN&utm_term=0_25f1e048c1-6c352b8e7b-54801985

<https://articles.mercola.com/sites/articles/archive/2020/04/21/bill-gates-political-power.aspx>

It seems that Americans have been slower than Europeans in catching onto the lies about Covid-19. In fact, in September 2020, alarming news came out that the state of **Ohio**, under the leadership of Republican Gov. Mike DeWine, was **opening up quarantine camps all across the state to detain children who are suspected of being infected with Covid-19**. According to a CDC advisory, kids who are believed to potentially have the virus could be forcibly detained at these camps, which will be run by the Federal Emergency Management Agency (FEMA).

<https://www.clearnewswire.com/455971.html>

However, people in the US *are* slowly waking up. Two protests have taken place so far about the Covid-19 mandates: one took place on August 30, 2020, in Boston, Massachusetts, against a **new student flu vaccination mandate**; and in Virginia, protesters gathered on September 2 in opposition to **unconstitutional Covid-19 mandates**.

Doctors Censored

Still, the majority of Americans are still quite asleep to what is taking place, even though early on, a great many doctors, immunologists and epidemiologists did begin speaking out about all the misinformation being given to the public. One of the first was **Dr. Dan Erickson** in California. **His initial youtube**, in which he outlined clearly – with much sincerity and a great deal of data he’d gathered – how unnecessary all the restrictions were, **received five million views**. Soon after, it was **censored by youtube**. He was obviously seen as a threat to the official narrative.

Subsequently, a number of other youtubes with clips of him speaking for just a short time were posted (and he may also be available on bit chute). In them, he explains why **all the precautions being demanded of both doctors and the**

population are not only unnecessary, but also highly detrimental to people's health.

<https://www.youtube.com/watch?v=zIVrMIeJ2Ns>

<https://www.youtube.com/watch?v=ExrrJicOZ90>

Soon afterward, several other doctors came forward and offered very similar information – and their youtubes were also censored. **Dr. Zach Bush** was especially eloquent about the subject. **Dr. Sherri Tenpenny** was another.

<https://www.youtube.com/watch?v=5RAtFBvKrVw&feature=youtu.be>

<https://www.youtube.com/watch?v=-81VWQuSYxk>

Dr. Judy Mikovitz is yet another doctor who explained very forcefully how wrong the official narrative was about the virus. Naturally, her videos have also been censored.

<https://www.youtube.com/watch?v=8CEnx48iBpU>

She thereafter came out with a **free ebook called "Plague of Corruption"** in order to express her views.

<https://goldenageofgaia.com/2020/05/09/dr-judy-mikovits-plague-of-corruption-an-ebook/>

Finally, on July 27, 2020, a group of frontline doctors from across the US held a **"White Coat Summit"** in Washington D.C., intending to **dispel the misinformation and myths surrounding the coronavirus**. All were highly concerned with the disinformation campaign being played out in the American media.

One doctor stated, "If Americans continue to let so-called experts and media personalities make their decisions, the great American experiment of a Constitutional Republic with Representative Democracy, will cease."

Another expressed: "This story is really quite simple. If you look behind the curtains, you'll see this medical story with Covid-19 is...A SCAM – IT'S FAKE. **So we need to ask who gets the benefit out of this and who has got the power to CREATE THIS FAKE.**"

Not surprisingly, shortly after their presentation, and after 17 million views, the videos from the doctors were taken down by Facebook and YouTube.

<https://www.thegatewaypundit.com/2020/07/us-frontline-doctors-hold-presser-washington-dc-dispel-misinformation-covid-9-including-attacks-life-saving-hcq-treatments/>

All of this continued, while the **World Health Organization itself**, back in June 2020 at a press conference, admitted one of the things that many of the censored scientists kept saying: that the **virus does not spread as easily as was assumed**. It had been discovered that, while there are instances of asymptomatic coronavirus patients transmitting the virus to others, they are certainly not the main reason the virus spreads.

To sum up all the myths about Covid-19, here is a well-written, concise summary of them, entitled **"Facts about Covid-19"** by journalist Derek Knauss:

https://prepareforchange.net/2020/06/18/facts-about-covid-19/?utm_source=rss&utm_medium=rss&utm_campaign=facts-about-covid-19

Another excellent article outlining the false assumptions about Covid-19 is an article by journalist Makia Freeman, called **"Busted: 11 COVID Assumptions Based on Fear Not Fact"**.

https://prepareforchange.net/2020/08/03/busted-11-covid-assumptions-based-on-fear-not-fact/?utm_source=rss&utm_medium=rss&utm_campaign=busted-11-covid-assumptions-based-on-fear-not-fact

Covid-19 Precautions are Physically Harmful

What is becoming all the more important to look at is the actual **harm to people's physical health** the fear-inducing information and precautionary mandates have caused.

First, let's look at the mandated use of **masks**. Aside from the fact that many doctors have said that the use of masks is not only unnecessary – and that cloth ones would be useless if Covid-19 were truly that dangerous – **wearing masks is actually harmful** for people's health.

In Makia Freeman's post, "**Unmasking the Truth: Studies show Dehumanizing Masks Weaken You and Don't Protect You**", she states:

"It is a commonsense scientific fact that wearing a mask blocks your airways and therefore leads to both **hypercapnia** (an increase in and accumulation of carbon dioxide in the body from breathing in exhaled air) and **hypoxia** (a lack of oxygen in the tissues). Symptoms of hypercapnia include dizziness, drowsiness, excessive fatigue, headaches, feeling disoriented, flushing of the skin and shortness of breath. Symptoms of hypoxia include anxiety, restlessness, confusion, changes in the color of skin, cough, rapid breathing, shortness of breath and sweating.

"Not surprisingly, both conditions are similar, since they are both characterized by a lack of oxygen. In addition, hypoxia has been shown to lead to **impaired immunity in general**, and to be a forerunner to serious diseases such as atherosclerosis, stroke and heart attack. It is also the **necessary precondition for the development of cancer...**"

And yet, we all see people who are so frightened that they actually wear masks when alone in their own homes and in their cars, as well as when they are jogging and biking – or when hiking out in the woods, with next to no one around. It begs the question: **How have human beings become so fearful as to not even be reasonably logical about this?**

https://prepareforchange.net/2020/05/26/unmasking-the-truth-studies-show-dehumanizing-masks-weaken-you-and-dont-protect-you/?utm_source=rss&utm_medium=rss&utm_campaign=unmasking-the-truth-studies-show-dehumanizing-masks-weaken-you-and-dont-protect-you

But, aside from the issue of how masks were weakening everyone's immune system, doctors also started becoming alarmed about the other harms they were witnessing with their patients due to the lockdown situation.

In May 2020, **hundreds of doctors wrote a letter** to President Trump. asking him to end the coronavirus shutdown, saying it was a "**mass casualty incident**" **spurring deaths due to other factors, such as substance abuse and suicides.**

The letter, shared online, estimated that about 150,000 Americans each month that the shutdown remains in place would have had new cancer detected, millions more

were missing dental exams that could discover problems linked to heart disease, while others were experiencing **domestic violence and child abuse**.

“Suicide hotline phone calls have increased 600%,” the letter added.

In addition, due to the mandates, people who had contracted the disease were **dying alone, in total isolation away from their loved ones**.

<https://www.washingtontimes.com/news/2020/may/21/500-doctors-tell-donald-trump-end-coronavirus-shut/>

<https://www.scribd.com/document/462319362/A-Doctor-a-Day-Letter-Signed>

One way to see how utterly unnecessary all the lockdown measures for Covid-19 have been is to **look at Sweden**; and how, as one of the few countries in the world that never went into lockdown, it has fared through all of it. Showing a chart of the deaths due to Covid-19 in the country, the post entitled, “Sweden: The One Chart that Matters” outlines how they managed to avoid the circus so many other countries created around the virus.

In July 2020, **Sweden reported that fatalities had dropped to no more than two deaths a day**.

“Unlike other European countries and the US, Sweden implemented a policy that was both conventional and sensible. They **recommended** that people maintain a safe distance between each other and they banned gatherings of 50 people or more. They also **asked** their elderly citizens to isolate themselves and to avoid interacting with other people as much as possible. Other than that, **Swedes were encouraged to work, exercise and get on with their lives as they would normally** even though the world was still in the throes of a global pandemic.”

<https://www.unz.com/mwhitney/sweden-the-one-chart-that-matters/>

How Treatment for the Virus has been Blocked

All this would be alarming enough, if well-known treatments for the virus that have been successful in other parts of the world had not been banned in the US. In particular, the drug, **Hydroxychloroquine (HCQ), when combined with zinc and azithromycin**, became the center of a great debate, when Dr. Fauci claimed this drug was not safe and would not work to cure Covid-19.

In response, a **nation-wide team of doctors** in August 2020 wrote an **open letter to Anthony Fauci**, elaborating on the success of this remedy, asking why HCQ had been made unavailable to both doctors and patients all throughout the US.

“As experience accrued in treating COVID-19 infections, **physicians worldwide discovered that high-risk patients can be treated successfully as an outpatient, within the first 5 to 7 days of the onset of symptoms, with a “cocktail” consisting of hydroxychloroquine, zinc, and azithromycin (or doxycycline)**. Multiple scholarly contributions to the literature detail the efficacy of the hydroxychloroquine-based combination treatment.

“**Dr. Harvey Risch**, the renowned Yale epidemiologist, published an article in May 2020 in the *American Journal of Epidemiology* titled ‘Early Outpatient Treatment of Symptomatic, High-Risk COVID-19 Patients that Should be Ramped-Up Immediately as Key to Pandemic Crisis’. He further published an article in *Newsweek* in July 2020 for the general public expressing the same conclusions and opinions. Dr. Risch is an expert at evaluating research data and study designs, publishing over 300 articles. Dr Risch’s assessment is that there is **unequivocal evidence for the early and safe use of the ‘HCQ cocktail’**...

“Yet, you continue to reject the use of hydroxychloroquine...**repeatedly emphasizing the lack of evidence supporting its use**. Hydroxychloroquine, despite 65 years of use for malaria, and over 40 years for lupus and rheumatoid arthritis, with a well-established safety profile, has been deemed by you and the FDA as unsafe for use in the treatment of symptomatic COVID-19 infections. **Your opinions have influenced the thinking of physicians and their patients, medical boards, state and federal agencies, pharmacists, hospitals, and just about everyone involved in medical decision making.**”

https://www.zerohedge.com/medical/doctors-pen-open-letter-fauci-regarding-use-hydroxychloroquine-treating-covid-19?utm_campaign=&utm_content=ZeroHedge%3A+The+Durden+Dispatch&utm_medium=email&utm_source=zh_newsletter

Mourning the fact that the mainstream media refused to cover the benefits of the drug and was actively silencing those trying to address the efficacy of HCQ, Dr. Risch added in an interview:

"Imagine how many people have died thanks to the media's 'propaganda war'."

<https://www.zerohedge.com/political/yale-epidemiologist-hydroxychloroquine-could-save-100000-lives-if-widely-deployed>

So far, no direct positive results have come about from this open letter or from the interviews Dr. Risch has given. All this is especially curious, as it seems that **Dr. Fauci, himself, actually approved HCQ for the treatment of a Corona virus back in 2005.**

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC1232869/>

A number of **youtubes created by doctors** about the efficacy of HCQ were subsequently **censored**.

However, in August 2020, the **Association of American Physicians and Surgeons did sue the Food & Drug Administration** in a federal court for its interference with the availability of HCQ, in *AAPS v. FDA*, No. 1:20-cv-00493-RJJ-SJB (W.D. Mich.).

"As confirmed by another recent study of thousands of patients at the Henry Ford Health System in Michigan, HCQ is both very safe and highly effective in treating COVID-19, reducing mortality by 50%," AAPS informed the court in its filing.

"Countries with underdeveloped health care systems are using HCQ early and attaining far lower mortality than in the United States, where [HHS and the FDA] impede access to HCQ."

<https://aapsonline.org/judicial/aaps-v-fda-hcq-7-20-2020.pdf>

You may ask why, with all the people who have been infected with the virus, and the success doctors in other countries have had with HCQ, it has been made unavailable in the US. Wouldn't it be obvious that this medication could cut down the numbers of American people suffering and dying?

Journalist **Lynn McTaggart** has at least one answer to this question, which she outlines in her article, "Why Covid Treatments are Being Suppressed: Just Do the Math".

Speaking about **yet another group of doctors from major academic medical centers**, dubbing themselves the “**Front Line COVID-19 Critical Care Alliance**”, she outlines how this group called an emergency meeting to discuss why the vast majority of critically ill Covid patients given the standard treatment recommended by national and international health care organizations were dying. Their main question was as to why so many patients were dying of acute respiratory failure.

Led by **Dr. Paul Marik**, this group met extensively, studying all the clinical and pathological data about the virus, and began discussions with a number of frontline intensive care unit experts working in some of the early outbreak areas, like China, Italy and New York.

In their research, the Alliance discovered another very promising treatment for Covid-19. They found that, when given intravenously in these emergency situations, **steroids like prednisolone and vitamin C** work together synergistically to improve survival in patients with acute respiratory distress syndrome.

Although the Alliance created a website and published (in many languages) the “MATH+” protocol they’d discovered back in March, as of August 2020, only two health centers in the US had systematically employed it to treat hospitalized Covid patients.

“If you want to figure out why, just pull out your calculator. The UK has just signed a deal for six experimental vaccines with Belgian pharmaceutical company Janssen and the US biotech company Novavax, for a total stockpile to 340 million doses – enough to vaccinate every British man, woman, and child five times.

“In America, the US government has spent about \$10 billion over a deal with Moderna, Inc. to manufacture and deliver 100 million doses of the company’s COVID-19 vaccine candidate...

“You want to know why you haven’t heard about Dr. Marik and his alliance? It’s simple. **Just do the math.**”

<https://consciousofnews.com/why-covid-treatments-are-being-suppressed-just-do-the-math/11191521/>

Lies about Covid-19 Vaccinations

The story about the Covid-19 “pandemic” would not be complete without adding the very confusing information that’s come out about possible vaccinations that may eventually be available – or mandated – for this particular virus.

It’s important to know that there exists a plethora of articles and videos available on the **dangers of any vaccinations produced, and, in particular, those produced by the World Health Organization and Bill Gates**. One of the most comprehensive explanations about this was given by Robert Kennedy, Jr. in an interview he gave in May 2020.

https://prepareforchange.net/2020/05/19/exclusive-interview-robert-kennedy-jr-destroys-big-pharma-fauci-pro-vaccine-movement/?utm_source=rss&utm_medium=rss&utm_campaign=exclusive-interview-robert-kennedy-jr-destroys-big-pharma-fauci-pro-vaccine-movement

There is also a shorter version of his explanation:

https://www.youtube.com/watch?time_continue=163&v=niJRTThkXrs&feature=emb_logo

Health expert and journalist **Mike Adams** explained how even Gates himself has admitted the **vaccine would probably kill many people**:

“In his rush to develop one, two, or even seven different vaccines for the Wuhan coronavirus (COVID-19), billionaire software tycoon Bill Gates openly admitted that **upwards of 700,000 people could become injured or die from these jabs**.

The Microsoft co-founder and prominent eugenicist has been more outspoken in recent days than perhaps ever before about his desire to vaccinate the entire world, in this case as soon as possible for the Wuhan coronavirus (COVID-19). **And the reality is that many more will die from the vaccine than from the virus itself.**”

<https://www.naturalnews.com/2020-05-17-bill-gates-harmed-killed-coronavirus-vaccines.html>

Well-known doctor and journalist, **Dr. Joseph Mercola**, has also weighed in on the dangerous effects of the fast-tracked vaccine that is planned.

https://articles.mercola.com/sites/articles/archive/2020/08/04/side-effects-of-fast-tracked-vaccine.aspx?cid_source=wnl

As have **Drs. Judy Mikovitz and Sherri Tenpenny.**

[https://ia601500.us.archive.org/29/items/youtube-JJLrZyKmoX0/Dr. Judy Mikovits Dr. Sherri Tenpenny Reveal All - 6 months to go - B092-JJLrZyKmoX0.mp4](https://ia601500.us.archive.org/29/items/youtube-JJLrZyKmoX0/Dr._Judy_Mikovits_Dr._Sherri_Tenpenny_Reveal_All_-_6_months_to_go_-_B092-JJLrZyKmoX0.mp4)

But the video that really brings home the dangers of this vaccination that some are hoping will be mandated for the entire world population is one in which the **engineer who developed the vaccination microchip for Gates** speaks. It is heart-breaking to hear the **regret and guilt in his voice as he tells his story about the horrendous dangers of the microchip for humanity.**

WHY is all this Happening?

If you've read this far, the question has inevitably arisen as to *why* all the lies, manipulation, control and censoring have been occurring, especially in the US. And this *is* the core question in all of this. Why, indeed?

Perhaps, despite the testimony of so many experts you've just read, you're still hearing "conspiracy theory bells" ringing in your mind. It may be unbelievable that so many of us could have been deceived to such a degree as we have. If so, see if you can just continue to keep your mind open to the possibility that this is so. And you will be open to discover that there has been a great deal going on, far below the surface of all the disruption and chaos around the Covid-19 virus that most people have absolutely no idea about.

But there are many people who *do* know – and they are **credible whistleblowers and insiders, some with sources from the highest levels of government on the planet. And they also include intelligent, educated researchers and journalists who have not been satisfied with the official narrative** about Covid-19. And, together, they explain much of why entire populations of so many nations in the world have been put through what they have, due to the virus – despite the fact that it truly, in the end, has not caused a pandemic. There is a much bigger and darker agenda playing out around control and manipulation by

forces that are essentially hidden behind the more obvious players we are all aware of.

One way to begin to see this is to take in the fact **that 90% of the mainstream media outlets in America are owned by just six mega-corporations.**

Compare this with the fact that back in 1983, there were 50 companies who owned all the mainstream media outlets.

<https://www.businessinsider.com/these-6-corporations-control-90-of-the-media-in-america-2012-6>

In addition, there has been an increasing trend in recent years for the major outlets to **hire ex-CIA agents to their staff of analysts and members of their boards.** If you're at all aware about the atrocities the CIA has created throughout the world, this is alarming.

<https://medium.com/@caityjohnstone/mainstream-media-outlets-keep-hiring-cia-intel-veterans-and-its-gross-62490d866362>

Another way to take in **how scripted the newscasts tend to be** on all the major TV channels, you can listen to these videos, which rather humorously reveal this.

<https://theweek.com/speedreads/764546/watch-surreal-video-compilation-dozens-local-news-anchors-giving-exact-same-warning-about-fake-news>

Another very concerning fact to be aware of is the **huge involvement of Bill Gates in major media companies**, including those outside the US, such as the BBC. **Dr. Joseph Mercola** has reported:

"By **injecting millions of dollars into various industries, companies and organizations**, Gates has risen to become one of the most influential individuals in the world, and he's become increasingly insulated from negative reviews thanks to the fact that **he also funds journalism.**

"Gates has given **more than \$250 million to media companies**, including BBC, NBC, Al Jazeera, ProPublica, National Journal, The Guardian, Univision, Medium, the Financial Times, The Atlantic, the Texas Tribune, Gannett, Washington Monthly, Le Monde, PBS NewsHour and the Center for Investigative Reporting."

Large grants from the Bill and Melinda Gates Foundation have also been given to a number of other very influential corporations in the world, with whom agreements have been made about what is said about Bill Gates.

Just taking in these facts about the mainstream media can give you a clue about **how controlled those news outlets tend to be** – which, even in the best of times, veers toward fear-mongering, anyway: As they say in newsrooms: “If it bleeds, it leads”.

But this is actually just the tip of the iceberg when it comes to how and why the public, especially in the US, are being so controlled and manipulated by just a few, very powerful individuals. It is beyond the scope of this ebook to fully explore this very complex subject; but, if you’re interested, there are probably **thousands of still-uncensored posts and videos on the subject you can find online**. And there are **many books** that have been written about the subject, as well. Some journalists, authors and whistleblowers to check out are listed at the end of this ebook.

One thing you will find, with just a little research, is that some things – such as the once-widely-claimed assertion and scientific proof that **the virus was created in a lab as a bioweapon** – can no longer be found on the internet, having been censored and removed. However, there is a recent report that has gone viral from a **“rogue” Chinese Virologist who asserts this very thing**. She is now in the process of also being censored.

The “Plandemic”

It is clear, when taking in all this information, that the danger of catching Covid-19 is probably extremely slim. However, there are certainly a number of *other* things transpiring around this virus to be alarmed about. It’s understandable that the “pandemic” has been referred to by so many as the “Plandemic” or the “Scamdemic”.

As journalist **Jim McKinney** sums up the situation:

- “Remember 15 days to slow the spread? We are months into an unprecedented lockdown. You can go to a casino, but you can’t go to church? Why are small businesses, the driver of our economy, being devastated while big corporations such as Home Depot and Amazon are open and thriving? Why are millions of people still out of work? Why are our children being denied a decent education—to protect union teachers while they go shopping at the local Costco or Target? How does any of this make sense?”
- “This has become a media- and politically-fabricated crisis—with the goals of undermining faith in the Trump administration, creating fear, and intimidating people who question big government decisions and the so-called “experts.” Political operatives are exploiting COVID-19 at the expense of our citizens.
- “The number of positive cases, not the number of deaths, is driving media hysteria—it’s political propaganda. Deaths have been going down significantly, but positive tests are going up. Why? Because the United States has done over 70 million tests.”

Hopefully, after reading and digesting the information presented here, you will join many other people in the US, whose trust in the CDC and the mainstream media to deliver accurate information about Covid-19 has plummeted. A poll recently taken by CBS showed that only **about 54% of voters trust the CDC for reliable information about the virus** at this point – a 30 percentage point drop from March, when 86% of voters said the same thing.

https://prepareforchange.net/2020/09/13/trust-in-the-cdc-and-media-to-deliver-accurate-information-about-covid-tumbles-poll-shows/?utm_source=rss&utm_medium=rss&utm_campaign=trust-in-the-cdc-and-media-to-deliver-accurate-information-about-covid-tumbles-poll-shows

And perhaps you will even be motivated to take action in your own community to eliminate the unnecessary mandates around the virus. **Did you know that mandating citizens to wear masks is actually illegal?** It evidently is. Watch the video below to hear how **Peggy Hall** in Southern California took it upon herself

to not only learn this, but to educate local lawmakers about it – who then had to lift the mandates in her county. She is very clear about how to do this and lays the process out. She has assisted people in other counties to accomplish the same thing.

In the end, what's almost humorous is that we may have a clue as to when this all this plandemic circus will come to an end, anyway: according to a slip of the tongue made by a public health director in California, **we may well see the end of all the lockdown mandates in the US right after the US election in November.** Very interesting, isn't it?
